SUBJECT INDEX TO VOLUME XLVII

ABDOMEN, Cardiovascular complications and their relation to surgery, 14: Intestinal kinking, 252; Abdominal fremitus in perforation, cor. 272; Autotransplantation of endometrium in the eye of rabbits, 329; Spontaneous hæmatoma of the abdominal wall, 861

Abortion, Ovarian irradiation, its effect on the health of subsequent children, review of literature, experimental and clinical, with a report of three hundred and twenty human pregnancies, 201

Acetabulum, Arthrotomy of the hip, 375; Treatment of congenital dislocation of the hip by open operation, 697; Operation for ankylosis of the hip-joint, 841

Alcoholism, Acute perforation of peptic ulcer; significance of unusually high incidence among soldiers in Hawaii, 815

American College of Surgeons—
- Clinical Congress, Boston, 1928, 135, 278, 433, 577
- Fellowship address: The education of the surgeon, William J. Mayo, 882
- Health inventorium—The evolution of clinical medicine and surgery in relation to the preservation of health and life, Franklin H. Martin, 736
- Hunterian oration: The Grand Curiosity, Sir Squire Sprigge, 877
- Inaugural address: The evolution of clinical medicine and surgery in relation to the preservation of health and life, Franklin H. Martin, 736
- Presidential address: The American College of Surgeons, past, present, and future, Franklin H. Martin, 887

Anæmia, Hæmolytic, in pregnancy, 669

Anæsthesia and anæsthetics, Symptoms produced by distention of the gall bladder and biliary ducts, a clinical and experimental study, 1; Are picric acid and mercurochrome solutions locally anæsthetic, 123; Newer aspects of liver abscess, 179; Technique of thyroidectomy, 225; Ligature of the angular vein as a preventive measure in facial carbuncle, cor. 272; Etiology of pulmonary abscess, 449; Controllable spinal anæsthesia in obstetrics, 713; Tracheotomy, technique and aftercare of patient, 848

Anatomy, comparative, Grand curiosity, 877

Aneurism, Aortic, Surgical importance of X-ray examination of the trachea and the bronchi, 53

Ankle, Study of ganglion, with especial reference to treatment, 460

Appendix, Appendiceal peritonitis, 401; Spontaneous hæmatoma of the abdominal wall, 861

Arteries, Study of arterial occlusion by means of autogenous fascial strips, 99

Arthritis, Consideration of certain derangements of knee joint, 155; Experimental study of muscle atrophy, 512

Asepsis, Bactericidal activity of hexylresorcinol (solution S. T. 37) on wound surfaces, 488

Aspiration versus embolism in postoperative pneumonia and pulmonary abscess, 125

BACILLUS sordelli, An unusual fatal operative wound infection yielding a pathogenic anaerobe of gas gangrene group, with direct reference to catgut as a source, cor. 273

Bacteria, Bactericidal activity of hexylresorcinol (solution S. T. 37) on wound surfaces, 488

Barium, Acute perforation of ulcer following barium filling in routine gastro-intestinal examination, 858

Bile, Accumulated, displacing the liver, ed. 421

Bile ducts, Symptoms produced by distention of gall bladder and, a clinical and experimental study, 1; Newer aspects of liver disease, 179; Acute intestinal obstruction due to impacted gall stones, report of four cases, 416; Accumulated bile displacing liver, ed. 421; Removal of stones from the common and hepatic, in jaundiced patients, 800

Bladder, New procedure in the diagnosis of ureteral calculi, 105; Bilateral double pelvis and ureter with anomalous opening of the superior left ureter into the urethra, congenital ureteral incontinence, 111; Leucoplakia of urinary organs, report of thirteen new cases, 145; Cure of intractable vesicovaginal fistula by use of pedicled muscle flap, new concept, 255; Restoration of female urethra and vesical sphincter, operative technique resulting in urinary control, 408; Consideration of bladder tumors with special regard to therapeutic measures best suited to different types 413; Pregnancy terminated by cæsarean section after ureteral transplantation into sigmoid, 540; Transplantation of ureters into large intestine in cancer, 593; Epispadias in female and its surgical treatment, 680

Blood, Cardiovascular complications and their relation to surgery, 14; Treatment of postoperative progressive gangrenous infection of skin and subcutaneous tissue with blood from immunized donors, 247; Dangers in postoperative use of insulin, 665

Blood vessels, Cardiovascular complications and their relation to surgery, 14; Study of arterial occlusion by means of autogenous fascial strips, 99; Angular vein, Ligature of, as preventive measure in facial carbuncle, cor. 272; Ulcer cruris, Etiology, pathogenesis, and treatment, 469; Experimental and clinical contribution to question of innervation of vessels, 631; Electrosurgery as aid to removal of intracranial tumors, with preliminary note on a new surgical-current generator, 751; Spontaneous hæmatoma of abdominal wall, 861

Bone, Infective osteomyelitis, 44; Larsen-Johansson disease of patella, 68; Arthroplasty of knee, 89; Chondrodysplasia, 338; Arthrotomy of hip, 375

Brain, Early diagnosis of tumor, ed. 266; Clinical significance of choked disc produced by abscess of, 405; Cranial and intracranial damage in newborn, end-result study of one hundred seventeen cases, 622; Chronic subdural hæmatoma, ed. 728; Convulsions, ed. 729; Electrosurgery as aid to removal of intracranial tumors with preliminary note on new surgical-current generator, 751

Breast, Clinical index of malignancy for carcinoma of the, 812

Bronchography, Surgical importance of X-ray examination of trachea and bronchi, 53

Bronchoscopy, Technique of bronchoscopic pneumonography with lipiodol, 673

Bronchus, Surgical importance of X-ray examination of trachea and bronchi, 53

Burns, Are picric acid and mercurochrome solutions locally anæsthetic, 123

CÆCUM, Resection of, and ascending colon, how mortality may be reduced by modification of usual operation, 261; Aseptic intestinal anastomosis in resections of large bowel, 678
Cæsarean section, Pregnancy terminated by, after ureteral transplantation into sigmoid, 540; Endometrial adenomata in abdominal scar following, 710; Some historical notes on technique of Cæsarean section, 851
Calhoun, Abner Wellborn, 731
Cancer, Significance of mucus-forming cells in carcinoma of large intestine and rectum, 32; An aseptic method of intestinal anastomosis, 78; of cervix uteri, its surgical treatment and criteria essential to establishment of prognosis following operation, 183; What every doctor should know about, of stomach and what a gastro-intestinal study means, 216; Resection of cæcum and ascending colon, how the mortality may be reduced by modification of usual operation, 261; Multiple polyposis of colon, 346; Billroth I resection of stomach, 368; Relation of histological structure to prognosis of carcinomata of uterine cervix, 502; Cancer cell in general practice, ed. 566
Carbohydrate tolerance, Differentiation of reducing bodies in urine during pregnancy, 660
Carbuncle, Ligature of angular vein as preventive measure in facial carbuncle, cor. 272
Cartilage, Consideration of certain derangements of knee joint, 155; Chondrodysplasia, 338
Catgut, Unusual fatal operative wound infection yielding pathogenic anaerobe of gas gangrene group, with direct reference to, as source, cor. 273
Cauterization, Treatment of postoperative progressive gangrenous infection of skin and subcutaneous tissue with blood from immunized donors, 247; Consideration of bladder tumors with special regard to therapeutic measure best suited to the different types, 413
Cerebrospinal fluid, Spinal cord surgery, 289
Children, Co-operation of surgeon and pediatrician, ed. 265
Clostridium œdematoides, Unusual fatal operative wound infection yielding pathogenic anaerobe of gas gangrene group, with direct reference to catgut as source, cor. 273
Colon, Aseptic method of intestinal anastomosis, 78; What every doctor should know about cancer of stomach and what a gastro-intestinal study means, 216; Resection of cæcum and ascending colon, how mortality may be reduced by modification of usual operation, 261; Multiple polyposis of, 346; Gastro-enterostomy with transverse jejunal incision, preliminary clinical note, 383
Convulsions, ed. 729
Corpus luteum, Adult human endometrium in tissue culture, 334
Cranium, Cranial and intracranial damage in newborn, end-result study of one hundred seventeen cases, 622; Chronic subdural hæmatoma, ed. 728; Electrosurgery as an aid to removal of intracranial tumors with a preliminary note on new surgical current generator, 751
Cyst, Teratomatous, Clinical and pathological study of two, of spinal cord, containing mucus and ciliated cells, 297; Bone, Study of ganglion with especial reference to treatment, 460

DAKIN'S solution, Uterine sterilization, 115
Deformities, Stripping of os calcis, 523
Diabetes, Differentiation of reducing bodies in urine during pregnancy, 660; Dangers in postoperative use of insulin, 665
Diagnosis, What every doctor should know about cancer of stomach and what a gastro-intestinal study means, 216; Early, of brain tumor, ed. 266; Abdominal fremitus in perforation, cor. 272; Clinical significance of choked disc produced by abscess of brain, 405; Cancer cell in general practice, ed. 566; Clinical appraisal of cholecystography, ed. 567; Clinical index of malignancy for carcinoma of breast, 812
Diathermy, Juvenile exophthalmic goiter, 25; Consideration of bladder tumors with special regard to therapeutic measure best suited to different types, 413
Disease, Larsen-Johansson, of patella, 68; Osgood-Schlatter, of patella, 68; Ollier, Chondrodysplasia, 338
Drainage, Improvements in perineal prostatectomy permitting primary wound closure and healing without drainage, 531
Dressings and bandages, Treatment of fractures of neck of femur by double leg casts in fixed traction and triangle truss support, 101; Ulcer cruris, etiology, pathogenesis, and treatment, 469
Duodenum, Gastric exclusion, 230; Surgical results in peptic ulcer, 244; Abdominal fremitus in perforation, cor. 272; Billroth I resection of stomach, 368; Horsley pyloroplasty in acute perforated duodenal ulcers, 407; Surgical treatment of gastric and duodenal ulcer, 493; Fredet-Rammstedt operation for congenital pyloric stenosis, 527; Acute perforation of peptic ulcer, significance of unusually high incidence among soldiers in Hawaii, 815
Dura, Chronic subdural hæmatoma, ed. 728

EDUCATION, of surgeon, 882
Efficiency percentages, Surgical standardization, ed. 868
Elbow, Operative treatment of traumatic ulnar neuritis at elbow, 822
Electrosurgery, as aid to removal of intracranial tumors, with preliminary note on new surgical current generator, 751
Elephantiasis, Results in Porto Rico of Kondoleon operations for, of extremities, 843
Embolism, pulmonary, Cardiovascular complications and their relation to surgery, 14; postoperative, Aspiration versus, in pneumonia and pulmonary abscess, 125; Etiology of pulmonary abscess, 449
Endocrine glands, Effect of iodine and thyroid feeding on thyroid gland, experimental study, 168; Morphological changes in exophthalmic goiter following use of Lugol's solution, 173; Acute thyroiditis, study of sixty-seven cases, 478
Endometrium, Endometrial adenomata in abdominal scar following cæsarean section, 710; Study of uterine and tubal decidual reaction and endometrium of fifty-three cases of ectopic gestation, 785
Epididymis, Tuberculosis of, critical review based on study of ninety-four cases, 652; Tuberculosis of genital tract, 791; Pathology of epididymitis, 806
Epilepsy, idiopathic, Convulsions, ed. 729
Epiphyses, Chondrodysplasia, 338
Epispadias, in females and its surgical treatment, 680
Eye, Autotransplantation of endometrium in eye of rabbit, 329; Clinical significance of choked disc produced by abscess of brain, 405

FACE, Ligature of angular vein as preventive measure in facial carbuncle, cor. 272
Fallopian tube, Hæmatometra, report of twenty-three cases 356; Study of uterine and tubal decidual reaction in tubal pregnancy, based on histological examination of tubes and endometrium of fifty-three cases of ectopic gestation, 785

Fascia lata, Arthroplasty of knee, 89; Study of arterial occlusion by means of autogenous fascial strips, 99; Muscle-fascia suture with preserved fascia and tendon; weaving, New method of inguinal herniorrhaphy with living fascial sutures obtained from rectus sheath, 836
Felter yoke, as prophylactic measure for postoperative pressure paralysis following use of Trendelenburg position, 554
Femur, Infective osteomyelitis, 44; Arthroplasty of knee, 89; Treatment of fractures of neck of femur by double leg casts in fixed traction and triangle truss support, 101; Special methods for treatment of fracture deformities of, 235; Original features in arthroplasty of knee with improved prognosis, 312; Chondrodysplasia, 338; Arthrotomy of hip, 375; Treatment of congenital dislocation of hip by open operation, 697; Operation for ankylosis of hip-joint, 841
Fetus, Ovarian irradiation, its effect on health of subsequent children, review of literature, experimental and clinical, with report of three hundred twenty human pregnancies, 201
Fistula, Surgical results in peptic ulcer, 244; vesicovaginal, Cure of an intractable, by use of pedicled muscle flap, new concept, 255; Acute intestinal obstruction due to impacted gall stones, report of four cases, 416
Foot, Chondrodysplasia, 338; Stripping of os calcis, 523
Fractures, Treatment of, of neck of femur by double leg casts in fixed traction and triangle truss support, 101; Special methods for treatment of fracture deformities of femur, 235; Arthrotomy of hip, 375; Early treatment of fractures, ed. 422

GALL bladder, Symptoms produced by distention of, and biliary ducts, an experimental and clinical study, 1; Postoperative surgical intervention, 126; Acute intestinal obstruction due to impacted gall stones, report of four cases, 416; Clinical appraisal of cholecystography, ed. 567; Removal of stones from common and hepatic bile ducts in jaundiced patients, 800; Spontaneous hæmatoma of abdominal wall, 861
Ganglion, Study of, with especial reference to treatment, 460
Gangrene, Treatment of postoperative progressive gangrenous infection of skin and subcutaneous tissue with blood from immunized donors, 247
Gas bacillus, Unusual fatal operative wound infection yielding a pathogenic anaerobe of the gas gangrene group, with direct reference to catgut as a source, cor. 273
Gasserian ganglion, Radical operation for relief of trigeminal neuralgia, 73
Gastro-intestinal tract, Significance of mucus-forming cells in carcinoma of large intestine and rectum, 32; Aseptic method of intestinal anastomosis, 78; What every doctor should know about cancer of stomach and what a gastro-intestinal study means, 216; Gastric exclusion, 239; Gastro-enterostomy with a transverse jejunal incision, preliminary clinical report, 383; Billroth I resection of stomach, 368; Appendiceal peritonitis, 401; Horsley pyloroplasty in acute perforated duodenal ulcers, 407; Acute intestinal obstruction due to impacted gall stones, report of four cases, 416; Surgical treatment of gastric and duodenal ulcer, 493; Fredet-Rammstedt operation for congenital pyloric stenosis, 527
Genital system, Autotransplantation of endometrium in eye of rabbit, 329; Adult human endometrium in tissue culture, 334; Tuberculosis of genital tract, 791
Genito-urinary tract, Restoration of female urethra and vesical sphincter, operative technique resulting in urinary control, 408; Improvements in perineal prostatectomy permitting primary wound closure and healing without drainage, 531; Pregnancy terminated by cæsarean section after ureteral transplantation into sigmoid, 540
Glucose, Co-operation of surgeon and pediatrician, ed. 265
Goiter, Juvenile exophthalmic, 25; Surgical importance of X-ray examination of trachea and the bronchi, 53; Effect of iodine and thyroid feeding on thyroid gland, experimental study, 168; Morphological changes in exophthalmic goiter following use of Lugol's solution, 173; Technique of thyroidectomy, 225; Acute thyroiditis, study of sixty-seven cases, 478; Tracheotomy, technique and after-care of patient, 848
Gonorrhœa, Pyuria in chronic uncomplicated prostatitis 42
Gum acacia, Cardiovascular complications and their relation to surgery, 14
Gynecology, Ovarian irradiation, its effect on health of subsequent children, review of literature, experimental and clinical, with report of three hundred twenty human pregnancies, 201; Cure of an intractable vesicovaginal fistula by use of pedicled muscle flap, new concept, 255

HÆMATOMETRA, report of twenty-three cases, 356
Hæmorrhage, Suprarenal apoplexy, bilateral, 393; Cranial and intracranial damage in newborn, end-result study of one hundred seventeen cases, 622
Harelip, Co-operation of surgeon and pediatrician, ed. 265
Heart, Cardiovascular complications and their relation to surgery, 14; Juvenile exophthalmic goiter, 25
Hernia, Vaginal, 36; Varicocele, study of five hundred cases, 558; inguinal, new method of herniorrhaphy with living fascial sutures obtained from rectus sheath, 831; inguinal, Muscle fascia suture with preserved fascia and tendon, 836; Spontaneous hæmatoma of abdominal wall, 861
Hexylresorcinol, Bactericidal activity of (solution S. T. 37) on wound surfaces, 488
Hip, Arthrotomy of, 375; Treatment of congenital dislocation of, by open operation, 697; Operation for ankylosis of, 841
Histology, Relation of histological structure to prognosis of carcinomata of uterine cervix, 502; Clinical index of malignancy for carcinoma of breast, 812
Humerus, Infective osteomyelitis, 44
Hunter, John, Grand curiosity, 877
Hydrocephalus, Cranial and intracranial damage in newborn, end-result study of one hundred seventeen cases, 622

ILEUM, Aseptic intestinal anastomosis in resections of large bowel, 678
Ileus, Spontaneous hæmatoma of abdominal wall, 861
Index, Clinical, of malignancy for carcinoma of breast, 812
Infection, Arthroplasty of knee, 89; Uterine sterilization, 115; Treatment of postoperative progressive gangrenous infection of skin and subcutaneous tissue with blood from immunized donors, 247; Etiology of pulmonary abscess, 449; after cæsarean section, Some historical notes on technique of cæsarean section, 851
Instruments and apparatus, Rankin clamp, An aseptic method of intestinal anastomosis, 78; rubber bag catheter, new procedure in diagnosis of ureteral calculi, 105; Felter yoke as prophylactic measure for postoperative pressure paralysis following use of Trendelenburg position, 554; Ballon lipiodol injecting instruments, Technique of bronchoscopic pneumonography with

lipiodol, 673; Jackson, Kahler-Leiter, Bruning bronchoscope, Technique of bronchoscopic pneumonography with lipiodol, 673; Bovie electrode or surgical-current generator, Electrosurgery as an aid to the removal of intracranial tumors, 751
Insulin, Dangers in postoperative use of, 665
Intestines, Significance of mucus-forming cells in carcinoma of large, and rectum, 32; Prolapse, Vaginal hernia, 36; anastomosis, Aseptic method of, 78; Postoperative surgical intervention, 126; Gastric exclusion, 230; Intestinal kinking, 252; Resection of cæcum and ascending colon, how the mortality may be reduced by modification of usual operation, 261; Co-operation of surgeon and pediatrician, ed. 265; Multiple polyposis of colon, 346; Gastro-enterostomy with transverse jejunal incision, preliminary clinical report, 383; Appendiceal peritonitis, 401; Acute intestinal obstruction due to impacted gall stones, report of four cases, 416; Transplantation of ureters into large, 593; Leiomyomata of, 643; Aseptic intestinal anastomosis in resections of large bowel, 678; Acute perforation of ulcer following barium filling in routine gastro-intestinal examination, 815
Iodine, Effect of, and thyroid feeding on thyroid gland, experimental study, 168; Morphological changes in exophthalmic goiter following the use of Lugol's solution, 173
Iodopin, Surgical importance of X-ray examination of trachea and the bronchi, 53

JAUNDICE, Newer aspects of liver disease, 179; Removal of stones from common and hepatic bile ducts in jaundiced patients, 800
Jejunum, Gastro-enterostomy with transverse jejunal incision, preliminary clinical report, 383
Joint, Larsen-Johansson disease of patella, 68, Arthroplasty of knee, 89; Original features in arthroplasty of knee with improved prognosis, 312; Study of ganglion, with special reference to treatment, 460

KIDNEY, Bilateral double pelvis and ureter with anomalous opening of superior left ureter into the urethra, congenital ureteral incontinence, 111; Leucoplakia of urinary organs, report of thirteen new cases, 145; Suprarenal apoplexy, bilateral, 393; Responsibility of surgeon in treatment of renal tuberculosis, ed. 867
Knee, Larsen-Johansson disease of patella, 68; Ankylosis, Arthroplasty of, 89; Consideration of certain derangements of, 155; Original features in arthroplasty of, with improved prognosis, 312; Study of ganglion, with especial reference to treatment, 460

LABIA, Cure of intractable vesicovaginal fistula by use of pedicled muscle flap, new concept, 255; Restoration of female urethra and vesical sphincter, an operative technique resulting in urinary control, 408
Labor, Hæmatometra, report of twenty-three cases, 356; Controllable spinal anæsthesia in obstetrics, 713
Larynx, Importance of early tracheotomy, 726; Two-stage laryngectomy, 826; Tracheotomy, technique and after-care of patient, 848
Leg, Special methods for treatment of fracture deformities of femur, 235; Chondrodysplasia, 338; Ulcer cruris, etiology, pathogenesis and treatment, 469; Results in Porto Rico of Kondoleon operations for elephantiasis of extremities, 843
Ligament, Consideration of certain derangements of knee joint, 155
Lipiodol, Surgical importance of X-ray examination of trachea and the bronchi, 53; Spinal cord surgery, 289; Technique of bronchoscopic pneumonography with, 673
Liver, New aspects of liver disease, 179; Accumulated bile displacing the liver, ed. 421; Removal of stones from common and hepatic bile ducts in jaundiced patients, 800
Lloyd, Samuel, 870
Lungs, Surgical importance of X-ray examinations of trachea and bronchi, 53; Aspiration versus embolism in postoperative pneumonia and pulmonary abscess, 125; Postoperative surgical intervention, 126; Etiology of pulmonary abscess, 449; Technique of bronchoscopic pneumonography with lipiodol, 673
Lymph nodes, Cancer of cervix uteri, its surgical treatment and criteria essential to the establishment of prognosis following operation, 183
Lymphatic system, Results in Porto Rico of Kondoleon operations for elephantiasis of extremities, 843

MALIGNANCY, Clinical index of, for carcinoma of breast, 812
Master Surgeons of American—
Charles Burnam Porter, 128; Theodore Frelinghuysen Prewitt, 268; DeForest Willard, 424; Theophilus Parvin, 569; Abner Wellborn Calhoun, 731; Samuel Lloyd, 870
Maxilla, Further study of cleft palate, 707
Medicine, Evolution of clinical medicine and surgery in relation to preservation of health and life, 736
Meningitis, Spinal cord surgery, 289
Menopause, Hæmatometra, report of twenty-three cases, 356
Menstruation, Adult human endometrium in tissue culture, 334; Hæmatometra, report of twenty-three cases, 356
Mercurochrome, Are picric acid and, solutions locally anæsthetic, 123
Mojon-Gabaston method, Delivery of adherent placenta by, cor, 272
Morbidity ratio, Surgical standardization, ed. 868
Mortality ratio, Surgical standardization, ed. 868
Mucous membrane, Significance of mucus-forming cells in carcinoma of large intestine and rectum, 32
Muscles, Experimental study of muscle atrophy, 512; Stripping of os calcis, 523; Muscle-fascia suture with preserved fascia and tendon, 836

NECK, Acute thyroiditis, Study of sixty-seven cases, 478
Nerves, Symptoms produced by distention of the gall bladder and biliary ducts, clinical and experimental study, 1; Cardiovascular complications and their relation to surgery, 14; Radical operation for relief of trigeminal neuralgia, 73; Pathogenesis and surgical treatment of gastric crisis of tabes, neuroramisectomy, 543; Operative treatment of traumatic ulnar neuritis at elbow, 822
Nervous system, Spinal cord surgery, 289; Clinical and pathological study of two teratomatous cysts of spinal cord containing mucus and ciliated cells, 297; Clinical significance of choked disc produced by abscess of brain, 405; Experimental study of muscle atrophy, 512; Pathogenesis and surgical treatment of gastric crisis of tabes, neuroramisectomy, 543; Experimental and clinical contribution to question of innervation of vessels, 631
Neuralgia, Radical operation for relief of trigeminal, 73
Neurasthenia, Varicocele, Study of five hundred cases, 558
Neurology, Early diagnosis of brain tumor, ed. 266

Neurolysis, Operative treatment of traumatic ulnar neuritis at elbow, 822
Newborn, Cranial and intracranial damage in, end-result study of one hundred seventeen cases, 622

OBSTETRICS, Delivery of adherent placenta by Mojon-Gabaston method, cor. 272; Controllable spinal anæsthesia in, 713
Old Masterpieces in Surgery—
The Surgical Armamentarium of Joannus Scultetus, 131; Medicosurgical Observations of Jobi-a Meek'ren, 274; The Tetrabiblion of Aetius of Amida, 426; The Great Surgery of Guy de Chauliac, 573; The Succenturiatus Anatomicus of Pieter Paaw, 733; The Surgery of John Woodall, 872
Operations—Mikulicz, Aseptic method of intestinal anastomosis, 78; Spiller-Frazier, Spinal cord surgery, 289; Foerster, Spinal cord surgery, 289; Horsley pyloroplasty, in acute perforated duodenal ulcers, 407; Fredet-Rammstedt, for congenital pyloric stenosis, 527; Kondoleon, Results in Porto Rico of, for elephantiasis of extremities, 843
Osteo-arthritis, Consideration of certain derangements of knee joints, 155
Osteochondritis, Consideration of certain derangements of knee joints, 155
Osteomyelitis, Infective, 44
Ovary, Ovarian irradiation, its effect on health of subsequent children, review of literature, experimental and clinical, with report of three hundred twenty human pregnancies, 201; Adult human endometrium in tissue culture, 334; Spontaneous hæmatoma of abdominal wall, 861
Ovum, Ovarian irradiation, its effect on the health of subsequent children, review of literature, experimental and clinical, with report of three hundred twenty human pregnancies, 201
Oxygen, Cardiovascular complications and their relation to surgery, 14

PAIN, Pathogenesis and surgical treatment of gastric crisis of tabes, neuroramisectomy, 543
Palate, Co-operation of surgeon and pediatrician, ed. 265; Further study of cleft, 707
Pancreas, Billroth I resection of stomach, 368
Paralysis, Spinal cord surgery, 289; Clinical pathological study of two teratomatous cysts of the spinal cord containing mucus and ciliated cells, 297; Stripping of the os calcis, 523; Felter yoke as a prophylactic measure for postoperative pressure paralysis following the use of the Trendelenburg position, 554
Parvin, Theophilus, 569
Patella, Larsen-Johansson disease of, 68; Arthroplasty of knee, 89; Original features in arthroplasty of knee with improved prognosis, 312
Pelvis, Vaginal hernia, 36
Perineum, Restoration of the female urethra and vesical sphincter, an operative technique resulting in urinary control, 408
Peritonitis, Intestinal kinking, 252; Appendiceal, 401
Pharynx, Two-stage laryngectomy, 826
Physician and surgeon, Co-operation of surgeon and pediatrician, ed. 265
Picric acid, Are mercurochrome and, solutions locally anæsthetic, 123
Placenta, Delivery of adherent by Mojon-Gabaston method, cor. 272
Pneumonia, Cardiovascular complications, relation to surgery, 14; Aspiration versus embolism in postoperative, 125; Etiology of pulmonary abscess, 449
Pneumonography, Technique of bronchoscopic, with lipiodol, 673
Porter, Charles Burnam, 128
Portraits—
Charles Burnam Porter, 128; Theodore Frelinghuysen Prewitt, 268; DeForest Willard, 424; Theophilus Parvin, 569; Abner Wellborn Calhoun, 731; Samuel Lloyd, 870
Pregnancy, Ovarian irradiation, its effect on the health of subsequent children, review of literature, experimental and clinical, with report of three hundred twenty human pregnancies, 201; terminated by cæsarean section after ureteral transplantation into the sigmoid, 540; Differentiation of reducing bodies in urine during pregnancy, 660; Hæmolytic anæmia in, 669; Convulsions, ed. 729; Study of uterine and tubal decidual reaction and endometrium of fifty-three cases of ectopic gestation, 785
Prewitt, Theodore Frelinghuysen, 268
Prostate, Pyuria in chronic uncomplicated prostatitis, 42; Improvements in perineal prostatectomy permitting primary wound closure and healing without drainage, 531; Transplantation of ureters into the large intestine, 593; Tuberculosis of genital tract, 791
Puerperal infection, Uterine sterilization, 115
Pylorus, Horsley pyloroplasty in acute perforated duodenal ulcers, 407; Surgical treatment of gastric and duodenal ulcer, 493; Fredet-Rammstedt operation for congenital pyloric stenosis, 527

RADIUM, Cancer of cervix uteri, its surgical treatment and criteria essential to the establishment of a prognosis following operation, 183; Ovarian irradiation, its effect on the health of subsequent children, review of literature, experimental and clinical, with report of three hundred twenty human pregnancies, 201; Hæmatometra, report of twenty-three cases, 356; Consideration of bladder tumors with special regard to therapeutic measures best suited to different types, 413
Radius, Infective osteomyelitis, 44
Rectum, Significance of mucus-forming cells in carcinoma of large intestine and rectum, 32; Multiple polyposis of colon, 346; Leiomyomata of intestines, 643
Respiration, Symptoms produced by distention of gall bladder and biliary ducts, clinical and experimental study, 1
Roentgenography, Acute perforation of ulcer following barium filling in routine gastro-intestinal examination, 815
Roentgen-ray, Surgical importance of X-ray examination of trachea and bronchi, 53; New procedure in diagnosis of ureteral calculi, 105; Cancer of cervix uteri, its surgical treatment and criteria essential to the establishment of prognosis following operation, 183; Ovarian irradiation, its effect on the health of subsequent children, review of literature, experimental and clinical, with report of three hundred twenty human pregnancies, 201; What every doctor should know about cancer of stomach and what a gastro-intestinal study means, 216; Consideration of bladder tumors with special regard to the therapeutic measures best suited to different types, 413; Relation of histological structure to prognosis of carcinomata of uterus cervicis; Clinical appraisal of cholecystography, ed. 567

SCROTUM, Varicocele, study of five hundred cases, 558
Seminal vesicles, Tuberculosis of genital tract, 791
Septicæmia, Infective osteomyelitis, 44
Shock, Surgical, Dangers in postoperative use of insulin, 665

Sigmoid, Resection of cæcum and ascending colon, how the mortality may be reduced by modification of usual operation, 261; Pregnancy terminated by cæsarean section after ureteral transplantation into sigmoid, 540
Skin, Treatment of postoperative progressive gangrenous infection of skin and subcutaneous tissue with blood from immunized donors, 247
Spermatic cord, Varicocele, study of five hundred cases, 558
Spina bifida, Clinical and pathological study of two teratomatous cysts of the spinal cord containing mucus and ciliated cells, 297
Spinal cord, Spinal cord surgery, 289; Clinical and pathological study of two teratomatous cysts of the, containing mucus and ciliated cells, 297
Spine, Spinal cord surgery, 289; Chondrodysplasia, 338
Splints, Special methods for the treatment of fracture deformities of the femur, 235
Staphylococcus, Bactericidal activity of hexylresorcinol (solution S. T. 37) on wound surfaces, 488
Sterilization, Uterine, 115
Stomach, Postoperativesurgical intervention, ed. 126; What every doctor should know about cancer of, and what a gastro-intestinal study means, 216; Gastric exclusion, 230; Surgical results in peptic ulcer, 244; Billroth I resection of stomach, 368; Gastro-enterostomy with transverse jejunal incision, preliminary clinical report, 383; Horsley pyloroplasty in acute perforated duodenal ulcer, 407; Surgical treatment of gastric and duodenal ulcer; 493; Fredet-Rammstedt operation for congenital pyloric stenosis, 527; Pathogenesis and surgical treatment of gastric crisis of tabes, neuroramisectomy, 543; Acute perforation of ulcer following barium filling in routine gastro-intestinal examination, 858; Acute perforation of peptic ulcer, significance of unusually high incidence among soldiers in Hawaii, 815
Streptococcus, Bactericidal activity of hexylresorcinol (solution S. T. 37) on wound surfaces, 488
Suprarenal apoplexy, bilateral, 393
Surgeon, Co-operation of surgeon and pediatrician, ed. 265; Responsibility of, in treatment of renal tuberculosis, ed. 867; Education of, 882
Surgery, Cardiovascular complications and their relation to, 14; Radical operation for relief of trigeminal neuralgia, 73; Aseptic method of intestinal anastomosis, 78; Aspiration versus embolism in postoperative pneumonia and pulmonary abscess, ed. 125; Postoperative surgical intervention, ed. 126; Multiple polyposis of colon, 346; Evolution of clinical medicine and surgery in relation to preservation of health and life, 736; Standardization of, ed. 868
Sympathectomy, Experimental and clinical contribution to question of innervation of vessels, 631
Syphilis, Pyuria in chronic uncomplicated prostatis, 42; Ulcer cruris, etiology, pathogenesis, and treatment, 469

TABES, Pathogenesis and surgical treatment of gastric crisis of, neuroramisectomy, 543
Tendon, Consideration of certain derangements of knee joint, 155; Study of ganglion, with especial reference to treatment, 460; Stripping of the os calcis, 523; Muscle-fascia suture with preserved fascia and tendon, 836
Test, Queckenstedt, Spinal cord surgery, 289
Testicle, Autotransplantation of endometrium in eye of rabbits, 329; Varicocele, study of five hundred cases, 558; Tuberculosis of genital tract, 791
Thrombo-angiitis obliterans, Cardiovascular complications and their relation to surgery, 14
Thyroid, Cardiovascular complications and their relation to surgery, 14; Juvenile exophthalmic, 25; Surgical importance of X-ray examination of trachea and bronchi, 53; Postoperative surgical intervention, 126; Effect of iodine and thyroid feeding on thyroid gland, experimental study, 168; Morphological changes in exophthalmic, following use of Lugol's solution, 173; Technique for thyroidectomy, 225; Acute thyroiditis, study of sixty-seven cases, 478; Importance of early tracheotomy, 726
Tibia, Infective osteomyelitis, 44; Arthroplasty of knee, 89; Original features in arthroplasty of knee with improved technique, 312; Chondrodysplasia, 338
Tissue, Treatment of postoperative progressive gangrenous infection of skin and subcutaneous tissue with blood from immunized donors, 247
Tonsil, Co-operation of surgeon and pediatrician, ed. 265; Etiology of pulmonary abscess, 449
Trachea, Surgical importance of X-ray examination of trachea and bronchi, 53; Importance of early tracheotomy, 726; Two-stage laryngectomy, 826; Tracheotomy, technique and after-care of patient, 848
Tuberculosis, Infective osteomyelitis, 44; Arthroplasty of knee, 89; Leucoplakia, of urinary organs, report of thirteen new cases, 145; Resection of cæcum and ascending colon, how the mortality may be reduced by modification of usual operation, 261; Co-operation of surgeon and pediatrician, ed. 265; Original features in arthroplasty of knee with improved prognosis, 312; Arthrotomy of hip, 375; Etiology of pulmonary abscess, 449; Ulcer cruris, etiology, pathogenesis, and treatment, 469; of epididymis, critical review based on study of ninety-four cases, 652; of genital tract, 791; responsibility of surgeon in treatment of renal, ed. 867
Tumor, mediastinal, Surgical importance of X-ray examination of trachea and the bronchi, 53; Cancer of cervix uteri, its surgical treatment and criteria essential to the establishment of prognosis following operation, 183; brain, Early diagnosis of, ed. 266; polyposis, Multiple, of colon, 346; Cancer cell in general practice, ed. 566; Leiomyomata, of intestine, 643; hæmatoma, Chronic subdural, ed. 728; meningiomata, Electrosurgery as aid in removal of intracranial tumors, 751; acoustic, Electrosurgery as an aid in removal of intracranial tumors, 751; hæmatoma, Spontaneous, of abdominal wall, 861

ULCER, What every doctor should know about cancer of stomach and what a gastro-intestinal study means, 216; Surgical results in peptic ulcer, 244; Abdominal fremitus in perforation, cor. 272; cruris, etiology, pathogenesis, and treatment, 469
Ulna, Infective osteomyelitis, 44
Umbilical cord, Delivery of adherent placenta by Mojon-Gabaston method, cor. 272
Ureter, New procedure in diagnosis of ureteral calculi, 105; Bilateral double pelvis and ureter with anomalous opening of superior left ureter into urethra, congenital ureteral incontinence, 111; Leucoplakia of urinary organs, report of thirteen new cases, 145; Consideration of bladder tumors with special regard to the therapeutic measures best suited to different types, 413; Pregnancy terminated by cæsarean section after ureteral transplantation into sigmoid, 540; Transplantation of, into large intestine, 593; Epispadias in females and its surgical treatment, 680
Urethra, Bilateral double pelvis and ureter with anomalous opening of superior left ureter into urethra, congenital

ureteral incontinence, 111; Leucoplakia of urinary organs, report of thirteen new cases, 145; Cure of intractable vesicovaginal fistula by use of pedicled muscle flap, new concept, 255; Restoration of female urethra and vesical sphincter, operative technique resulting in urinary control, 408; Transplantation of ureters into large intestine in cancer, 593; Epispadias in females and its surgical treatment, 680

Urinary tract, Leucoplakia of urinary organs, a report of thirteen new cases, 145; Restoration of female urethra and vesical sphincter, operative technique resulting in urinary control, 408; Consideration of bladder tumors with special regard to therapeutic measures best suited to different types, 413

Urine, Pyuria in chronic uncomplicated prostatitis, 42; Bilateral double pelvis and ureter with anomalous opening of superior left ureter into urethra, congenital ureteral incontinence, 111; Differentiation of reducing bodies in urine during pregnancy, 660

Uterus, Vaginal hernia, 36; Uterine sterilization, 115; Cancer of cervix uteri, its surgical treatment and criteria essential to establishment of prognosis following operation, 183; Autotransplantation of endometrium in eye of rabbits, 320; Adult human endometrium in tissue culture, 334; Hæmatometra, report of twenty-three cases, 356; Relation of histological structure to prognosis of carcinomata of uterine cervix, 502; Leiomyomata of intestines, 643; Endometrial adenomata in abdominal scar following cæsarean section, 710; Study of uterine and tubal decidual reaction in tubal pregnancy based on histological examination of tubes and endometrium of fifty-three cases of ectopic gestation, 785; Some historical notes on technique of cæsarean section, 851

VAGINA, Vaginal hernia, 36; Cure of intractable vesicovaginal fistula by use of pedicled muscle flap, new concept, 255; Hæmatometra, report of twenty-three cases, 356; Restoration of female urethra and vesical sphincter, operative technique resulting in urinary control, 408; Transplantation of ureters into large intestine, 593

Varicocele, study of five hundred cases, 558

Varicose veins, Ulcer cruris, etiology, pathogenesis, and treatment, 469

Vein, Ulcer cruris, etiology, pathogenesis, and treatment, 469

Viscera, Pathogenesis and surgical treatment of gastric crisis of tabes, neuroramisectomy, 543

WOUND infection, An unusual fatal operative, yielding a pathogenic anaerobe of gas gangrene group, with direct reference to catgut as source, cor. 273; Bactericidal activity of hexylresorcinol (solution S. T. 37) on wound surfaces, 488

Willard, DeForest, 424

Wrist, Study of ganglion, with especial reference to treatment, 460
